FIREFOX

Warning: Potential Security Risk Ahead

Firefox detected an issue and did not continue to websc.scst.hr. The website is either misconfigured or your computer clock is set to the wrong time.

It's likely the website's certificate is expired, which prevents Firefox from connecting securely. If you visit this site, attackers could try to steal information like your passwords, emails, or credit card details.

What can you do about it?

Your computer clock is set to 3/24/2020. Make sure your computer is set to the correct date, time, and time zone in your system settings, and then refresh websc.scst.hr.

If your clock is already set to the right time, the website is likely misconfigured, and there is nothing you can do to resolve the issue. You can notify the website's administrator about the problem.
